Strategy of ISACA Chapter Switzerland

We make out a professional, leading and accepted association with focal point IT-themes which are

- Governance
- Risk Management
- Compliance
- Information Security
- Assurance

We offer to our members attractions as

- international approved frameworks and standards
- database for articles-, reference books and tools
- events and networking
- education and advanced traning
- exchange of knowledge

The members are engaged for success of our chapter by

- being active in the managing-board or in one of the different groups of interest
- using the attractive offers and recommend them to third persons
- publishing current articles
- accepting and advancing the multilingualism
